Inter-Governmental Agreement (IGA) under the Foreign Account Tax Compliance Act (FATCA) Notes for signing the Declaration

IMPORTANT - This document must be read with the Disclaimer which forms part of it

BACKGROUND

There are a number of substantial changes being made by financial regulators, governments and banks to ensure the protection and long-term safety of both the financial system and our customers' interests. One of these changes is the Foreign Account Tax Compliance Act (FATCA), which has been introduced by the US government. The United Kingdom has introduced The International Tax Compliance (United States of America) regulations 2015 to achieve the objectives of FATCA. The purpose of FATCA is to report financial assets owned by United States persons to the United States tax authorities.

Completing the attached form will ensure that we hold accurate and up to date information about your tax residency.

If your circumstances change and any of the information provided in this form becomes incorrect, please let us know immediately and provide an updated FATCA declaration form.

How does FATCA affect HSBC and our customers?

HSBC has made a commitment to being fully FATCA compliant in all countries where we operate. This means that affected customers have to be reported to the US tax authorities. In order to do so, we will need to obtain additional information from our customers to identify US Persons (USPs). There may also be other customers who we have to identify for this purpose.

Every year Banks and other Financial Organisations will be required to report information on financial accounts held directly or indirectly by US Persons.

Where we are not able to obtain the required information or documentation from our customers, we may have to report information on such clients to the relevant tax authority and may be required to apply U.S. withholding taxes in respect of certain types of US payments we make to our customers or our customers' accounts in the future. We may also end customer relationships.

In order to identify the customers where reporting under FATCA may apply, we need to match our customer base against certain categories set out in the FATCA legislation.

Does this apply to your organisation?

Whilst most FATCA categories set out in the legislation are not reportable, some may be applicable to our customers. In order to make sure that we are able to match our customers against the FATCA categories, we are asking our customers to provide confirmation of their FATCA status, review the conditions that apply, and confirm that they are satisfied.

HSBC is not able to provide tax advice in respect of this process or for FATCA classification purposes.

Who do we need to report under FATCA?

We are required to report certain information on accounts held by Specified US Persons. This includes accounts held by U.S. citizens and U.S. residents, certain corporations or partnerships created or organised in the United States, as well as accounts held by certain passive entities (please see the section on Passive Income and the section *What is meant by a passive entity (Passive NFFE) under FATCA?*) with shareholders (Controlling Persons) who are U.S. citizens or U.S. resident persons. We will also be required to report certain information on customers or financial counterparties who do not provide us with documentation to establish a tax status under FATCA.

What is a United States person (USP)?

The term 'United States person' includes:

- ◆ A citizen or resident of the United States
- ◆ A corporation or partnership created or organized in the United States of America or under the law of the United States or of any State of the United States of America
- ◆ Any estate (other than foreign estate, i.e. an estate the income of which, from sources without the United States which is not effectively connected with the conduct of a trade or business within the United States, is not includible in gross income under subtitle A of the United States Internal Revenue Code)
- ◆ Any trust if –(i) a court within the United States is able to exercise primary supervision over the administration of the trust, and (ii) one or more United States persons have the authority to control all substantial decisions of the trust.

If you are a United States person you will need to provide alternative documentation, which can be downloaded from <http://www.fatca.hsbc.com/en/cmb/uk>.

What is meant by a passive entity (Passive NFFE) under FATCA?

Very broadly, Passive Entities are defined under FATCA as non-US entities, organisations or companies that are in receipt of passive income or hold passive assets and do not fall under any of the other FATCA classifications. These entities do not carry on a business of a financial institution.

HSBC needs to understand the ownership of such entities to determine whether reporting under FATCA applies in respect of owners of a Passive NFFE that are United States Controlling Persons.

If you are a Passive NFFE and have Controlling Persons that are USPs, please provide the relevant details on the declaration in the specified section.

For further details please refer to The International Tax Compliance Regulations 2015 and associated HMRC Guidance.

What is meant by Controlling Persons?

Controlling Persons are the natural persons who exercise control over an Entity. In the case of a trust, such term means the settlor, the trustees, the protector (if any), the beneficiaries or class of beneficiaries, and any other natural person exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions. The term "Controlling Persons" shall be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

In the case of a trust, the Controlling Person may be the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, or any other natural person(s) exercising ultimate effective control over the trust (including through a chain of control or ownership).

For further details please refer to The International Tax Compliance Regulations 2015 and associated HMRC Guidance.

What is meant by Passive income?

Passive income generally includes:

- ◆ Dividends including income equivalent to dividends
- ◆ Interest including income equivalent to interest and certain returns from investments in insurance contracts
- ◆ Certain rents and royalties other than those derived from an active trade or business
- ◆ Annuities
- ◆ Net gains from transactions, including forwards and similar transactions relating to certain types of transactions in commodities
- ◆ Certain foreign currency exchange gains
- ◆ Net income from notional principal contracts
- ◆ Amounts received under cash value insurance contracts or amounts earned by an insurance company in connection with its reserves for insurance and annuity contracts
- ◆ Net gains from the sale of assets that give rise to certain of the above types of income

Certain exceptions apply. For further details please refer to The International Tax Compliance Regulations 2015 and associated HMRC Guidance.

What is a Non-Financial Foreign Entity?

The term Non-Financial Foreign Entity (NFFE) generally refers to a non-US entity that is not a financial institution (as defined for the purpose of FATCA). There are several different sub-categories and these are shown on the declaration for you to review and confirm whether the client entity satisfies the criteria of any of these categories and provide your certification.

HSBC is unable to provide advice about our clients' classification. If you are unable to select any of the classifications, you should seek advice from a tax professional.

For further details please refer to The International Tax Compliance Regulations 2015 and associated HMRC Guidance.

What is meant by a Financial Institution under FATCA?

The term 'financial institution' is broadly defined under FATCA and generally includes all banks, building societies, entities with custody of financial assets, certain types of insurance companies, asset management companies and certain investment funds or investment vehicles. An entity which appoints a trustee company or an entity that is a third party asset manager or acts as the holding company to a group of companies carrying on a financial business may also fall within the definition of financial institution. For a detailed definition of financial institution, please refer to The International Tax Compliance (United States of America) regulations 2014 and HMRC Guidance.

If you are a Financial Institution you will need to provide alternative documentation, which can be downloaded from <http://www.fatca.hsbc.com/en/cmb/uk>.

For further details please refer to The International Tax Compliance Regulations 2015 and associated HMRC Guidance.

What is a Related Entity?

An entity is a Related Entity of another if either entity controls the other entity, or the two entities are under common control. For this purpose control includes direct or indirect ownership of more than 50 percent of the vote or value in an entity.

What is meant by regularly traded on an established securities market?

An established securities market generally refers to the following:

Recognised stock exchange includes the London Stock Exchange, AIM and PLUS. For a full list of recognised stock exchanges please refer to HMRC Guidance.

More information can be found at: <https://www.gov.uk/government/publications/recognised-stock-exchanges-definition-legislation-and-tables>

For further details please refer to The International Tax Compliance Regulations 2015 and associated HMRC Guidance.

How do I know where I am tax resident?

Generally, an Entity will be resident for tax purposes in a jurisdiction if, under the laws of that jurisdiction (including tax conventions), it pays or should be paying tax therein by reason of his domicile, residence, place of management or incorporation, or any other criterion of a similar nature, and not only from sources in that jurisdiction. Dual resident Entities may rely on the tiebreaker rules contained in tax conventions (if applicable) to solve cases of double residence for determining their residence for tax purposes. An Entity such as a partnership, limited liability partnership or similar legal arrangement that has no residence for tax purposes shall be treated as resident in the jurisdiction in which its place of effective management is situated. A trust is treated as resident where one or more of its trustees is resident. For additional information on tax residence, please see the following link: www.oecd.org/tax/transparency/automaticexchangeofinformation.htm or talk to your tax adviser.
